

INNOVATIVE SOFTWARE

Propel POS ONE

An advanced and affordable solution for smaller stores.

Propel POS ONE was designed for pharmacies that have small front shops or low volume sales but still want the benefits of a market-leading pharmacy POS system. This scaled-down version of Propel POS provides an effective and low cost point-of-sale solution without sacrificing important POS functionality.

Pharmacies with Propel POS ONE can easily upgrade to Propel POS at any time as they grow and feel the need for more advanced functionality.

BENEFITS:

- Professionally manage your front store.
- Increase front store sales and profit.
- Increase efficiency and accuracy of inventory management.
- Reduce front store shrinkage and loss.
- Simplify processes and reduce paper work.
- Improve customer service.
- Our bundled solution comes with all the hardware and advanced software you need to get started.
- Turn-key and easy to setup and install.
- Optional Accounts Receivable module.

FEATURES:

- **Product Manager** allows you to easily maintain a product and price file. We will provide a product file to get you started, or you may simply sell items by department.
- **Promo Manager** create in-store promotional events.
- **Purchasing and Receiving** uses purchase orders to update inventory, costs and prices; create orders based on minimum and maximum re-order levels.
- **Replenishment Ordering** replaces inventory that has been sold at the till.
- A variety of standard **Product Reports** will help manage your retail operation more effectively and more profitably.
- **Cash Management** allows cashiers to easily balance tills at the end of a shift.
