

POS Mobile Delivery App

Increase customer loyalty by providing safe and convenient delivery of prescriptions and essential items.

The current pandemic situation made it even more apparent that a need for a delivery service is no longer an option, but rather a necessity. Delivery service also promotes the safety of your staff by limiting customer visits to the pharmacy.

Offering a delivery service improves customer loyalty and retention. It also provides a competitive advantage over other retail pharmacies who do not offer a similar service.

BENEFITS:

- **Extend** the reach of your store with prescriptions delivered to customers home.
- **Increase** customer retention and loyalty.
- **Keep vulnerable customers safe** by not having to step foot inside the pharmacy.
- **Simplifies** the delivery process.
- **Easy** to use interface.
- **Reliable** and secure.

FEATURES:

- **Quick and easy** method to scan, deliver and confirm receipt of delivery
- **Real-time** accurate information and order processing
- **Inventory control**
- **Seamless Integration**
- **Product management**
- **Comprehensive solution records** sale, updates inventory and tracks delivery

TECHNICAL SPECIFICATIONS:

- Solution requires a Mobile Mini and Wi-Fi network
