

## INNOVATIVE SOFTWARE

# POS Mobile Mini

**POS features from a computer the size of a smartphone.**

For employees on the retail floor, there is a never-ending list of tasks to be accomplished. Whether those tasks involve inventory management, promotions, pricing or ordering, one thing is clear: having the right tools to do the job is crucial.

Resembling a standard smartphone and loaded with features, POS Mobile Mini offers a modern and cost-effective wireless alternative to a traditional bulky and basic RF unit.

### BENEFITS:

- Access POS features commonly used on the retail floor.
- Significantly more features than an RF unit, at a fraction of the cost.
- Seamlessly integrates with secured Wi-Fi infrastructure provided by PTS.
- Minimal learning curve for employees.
- Increase margin through improved management of inventory and pricing.
- Keep your customers and your team safe. The POS Delivery App has everything you'll need to plan, track and manage your deliveries, all from the POS Mobile Mini.

### FEATURES:

- Combines the Propel POS Mobile app with all the functions of an **Android** device.
- Resembling a standard smartphone, POS Mobile Mini is **easy to learn**, practically eliminating the standard learning curve associated with introducing a new tool or device.
- Barely 10oz, its **light weight** makes the device ideal for extended use.
- **Retail hardened** and adhering to Military Standards, it is built to withstand multiple drops from a height of 5 feet.
- **Easy to use:** The bright and outdoor viewable 5" HD screen provides ample real-estate for viewing and using the app.
- Scans **2D and QR barcodes**, which are quickly becoming the standard barcode type for cards and coupons.
- From charging cradles to hand straps, a variety of **accessories** are available to complement POS Mobile Mini.
