

# Keyboard Shortcuts from the Workbench

The Workbench has keyboard shortcuts that can be used to create new and refill prescriptions, as well as open the Patient, Doctor, and Drug navigator windows.

**Note:** The following shortcuts can only be used when the Workbench is displayed on the screen. They will not work from any other windows or folders.

- F1** • To open the **Patient** Navigator button
- F3** • To open the **Doctor** Navigator button.
- F5** • To open the **Drug** Navigator button.
- F7** • To open the **New** Prescription window on the Workbench.
- F8** • To open the **Refill** Prescription window on the Workbench.
